

# Featured Designs

*Four globally inspired designs are now available in the Duramine collection. These versatile additions complement any traditional, modern or transitional space.*

**Alexandria Walnut**

**Kinabalu Teak**

**Noce Moscato**

**Angkor Root**

Roseburg  
**Duramine®**  
 Thermally Fused Laminate Panel

**880 - Alexandria Walnut**  
 A high-fidelity, richly colored walnut with subtle planking. Named for the Egyptian spice market, this traditional wood grain offers fresh appeal.

**881 - Angkor Root**  
 A warm, gray/brown with a hint of yellow and a complex and varied structure. Suitable for modern, traditional or transitional environments.

**882 - Kinabalu Teak**  
 Named for the highest peak in Malaysia, this warm, lightly colored teak draws inspiration from its namesake's granite-like geological structure.

**883 - Noce Moscato**  
 Rich, exotic, elegant tone-on-tone coloration of dark browns, grays and blacks. A modern version of a traditional walnut structure.

## Specifications
