

STATE-OF-THE-ART
Manufacturing

Roseburg has one of the **largest stud production** facilities in North America. Every part of the mill is designed to Roseburg's rigid **quality standards**. Our seamless manufacturing process allows for large volume of studs (nearly 400 million board feet annually) to be produced cost effectively. The entire manufacturing process is **state-of-the-art**, utilizing the most advanced technology to maximize the use of wood fiber in the production process. Our premium quality studs provide **excellent structural strength** to any construction project.

- Produced from Roseburg's excellent stands of timber in Oregon and California.
- All standard PET lengths plus many more.
- Custom grades and products
- Appearance grade premier available in all products
- Mixed product shipments

Customer Benefits

- Sales and marketing program tailored to meet your needs
- Dependable, long-term supplier
- Sustainable forest management practices
- Broadest product mix from one source
- Commitment to delivering on time, every time
- Skilled and knowledgeable customer service

Product: Douglas Fir
